

# Common Objects Flashcards

## **Ideas for using the flashcards**

Introduce symbol card first, then symbol with word card, and finally word card.

You will need to print off 2 sets of cards for some of the activities.

### **Pairs**

Pairs is a memory card game in which a pack of cards is spread out face down and players try to turn up pairs with the same picture.

Players take turns to turn over 2 cards, say what they see and if they find a matching pair they keep it.

Player with the most matching pairs at the end of the game is the winner.

**Find the matching cards.** Stick one set of cards around the room and give the child the other set to find and match.

**Post the cards.** Using an old shoebox with a slot cut into it take turns to say what's on the card and post into the box.

### **Part - whole recognition game**

The eye tends to complete a picture or shape so we recognise things even if we only see a little bit. But this skill is one we learn and improve at. If you show your picture emerging very slowly from behind a plain book, how soon can he / she recognise it and find the matching card. Make the picture come out from different edges of the book so he / she sees a different bit first.

### **Comprehension for description**

You hold your card and give clues about the picture and see if he / she can pick correct matching card.

# InPrint<sup>3</sup>

## Design personalised symbol materials to print

This resource pack was created using InPrint 3.

With access to over 20,000 Widgit Symbols, 100s of editable templates and a range of powerful design features, InPrint 3 customers can edit and amend all ready made resources, customise symbols and content, as well as create their own visual supports.

### Change Skin Tone

Change the skin tones of any symbol to make your materials more personal.

### Add Your Own Pictures

Personalise your materials by adding images from your computer or the web.

### Change Symbol Colour

Tweak the colour of any Widgit Symbol to make your content more relevant.

### Change Symbol Text

Edit the text beneath a symbol to make your content more specific or personal.

You have downloaded a PDF of the resources.

### Would you like to edit these PDF Resources?

If you subscribe to InPrint 3 (IP3), and download the IP3 version of the resources, you can edit or tailor the content to meet your needs.

### Not an InPrint 3 subscriber?
